

Tuesday, October 25th (Day 1)

8:15-9:30	Registration and Welcome Coffee		
9:15-9:25	Conference Opening by Michel Veunac, Mayor of Biarritz, regional councillor of the Nouvelle Aquitaine Region		
9:25-9:45	Michel Veunac, Chevalier de la Légion d'Honneur, presents the cross of "Chevalier de la Légion d'Honneur" to Yvonne Battiau-Queney , president of Eucc-France		
9:45-11:00	Authorities speeches by:		
	<p>Claude Olive, president of the "Agglomération Côte Basque Adour", Mayor of Anglet Peyuco Duhart, President of the "Agglomération Sud Pays Basque" (to confirm) Jean-Jacques Lasserre, President of the Department of Pyrénées Atlantiques (to confirm) Sandrine Derville, vice-president of the Nouvelle Aquitaine Region, representing the president Alain Rousset Pascal Got, deputy of Gironde, departmental councillor of Gironde Kotte Ecenarro, mayor of Hendaye, departmental councillor of Pyrénées Atlantiques Albert Larrousset, mayor of Guéthary Jean-François Rapin, senator, president of ANEL, regional councillor of Hauts de France <i>the Prefect of Pyrénées Atlantiques (to confirm)</i> Renaud Lagrave, president of GIP Aquitaine Littoral, vice-president of the Nouvelle Aquitaine Region Gerald Schernewski, president of Coastal & Marine Union (EUCC)</p>		
11:15-12:00	Keynote speaker: Gerald Schernewski . Integrated coastal zone management - State and Perspectives. (Auditorium)		
12:00-12:45	Keynote speaker: Per Sørensen . Challenges in the coastal area in Denmark in today and future climate. (Auditorium)		
12:45-14:00	Lunch (Atlantic room)		
14:00-14:45	Keynote speaker: Nicolas Castay . Current experimentation of integrated coastal zone management on a regional scale: the case of the Aquitaine coast. (Auditorium)		
	Session I. Aquaculture - Room Vague 1 – <i>Chair: N. Caill-Milly</i>	Session II. Baltic Sea - Room Vague 2 – <i>Chair: G. Schernewski</i>	Workshop I. - Auditorium –
14:45-15:05	A. Gjertsen, J. P. Johnsen, H. T. Sandersen . In search of the missing governance object – aquaculture and climate adaptation in Norway.	J. Schumacher, G. Schernewski, S. Schönwald, M. Katarzytę, D. Karnauskaitė, M. Bielecka, G. Różyński . Promoting sustainable coastal development and evaluating preferences – a decision support and stakeholder involvement tool.	Strategic choices of coastal management on different scales (from European to local scale) Coordinators : GIP Aquitaine Littoral, Region Aquitaine-Limousin-Poitou-Charentes, Department of Pyrénées Atlantiques, "Agglomération Côte Basque Adour", "Agglomération Sud Pays Basque", GIS Littoral basque
15:05-15:25	H. T. Sandersen, A. Buanes, E. Mikkelsen . Here and there or everywhere? Municipal strategies for siting of salmon farms in Norway.	G. Różyński, M. Bielecka . Economic recovery of the Vistula Lagoon, investigated with Systems Approach Framework.	Pascal Got (deputy of Gironde): Coastal management in relation to climate changes: a law proposal. Arnaud Gueguen (GIP Littoral Aquitaine): From a regional scheme to the implementation of local strategies for the management of coastal risks in Aquitaine
15:25-15:45	E. Mikkelsen, H. Kite-Powell, J. Perez, M. Ebeling, M. Wetterskog, S. Villasante, G. Krause, S. Stead . Measuring economic impacts of aquaculture.	E. Baltranaitė, I.-M. Gren, L. Latakienė, R. Povilanskas, G. Schernewski . New beaches along the Curonian Lagoon: perception, acceptance, socio-economic evaluation and perspectives.	
15:45-16:0	G. Krause, N. Stybel, H. T. Sandersen, M. Wetterskog, A. Buanes, S. Stead, S. Villasante, E. Mikkelsen . Exploring the social in aquaculture: what social dimension metrics tell us about the effects of the 'Blue Growth' strategy.	N. Stybel, J. Hirschfeld, G. Schernewski . Demands of coastal users on bathing water quality in the Szczecin Lagoon, Baltic Sea.	
16:05-16:25	Coffee break		

	Session III. Fisheries & Salt Marshes - Salle Vague 1 –	Session II. Baltic Sea (Continuation) - Salle Vague 2 – Chair: G. Schernewski	Workshop I. (Continuation) - Auditorium -
16:25-16:45	<u>M. N. de Casamajor</u>, N. Caill-Milly, M. Lissardy, N. Bru, P. Maron, S. Abadie, G. Maillet, V. Regard. An ecosystem approach to understand stock assessment of sea urchin <i>Paracentrotus lividus</i> (Lamarck 1816) on rocky shore of Bay of Biscay.	<u>N. Stybel</u>, R. Scholz, L. Herhaus. Communication of climate change in coastal communities – first experiences of the German Baltic Coast, involving the local tourism industry.	Caroline Sarrade. ("Agglomération Côte Basque Adour") and Caroline Huveteau , ("Agglomération Sud Pays Basque"); Two examples of current local choice of coastal management Manuel Dias Vaz , (CESER Atlantique): Society's perceptions of coastal management along the Atlantic coast.
16:45-17:05	G. Morandea, N. Caill-Milly, B. Liquet, X. Navarro, N. Bru, C. Saguet, Y. Lalanne, F. D'Amico. EOLE – Metadata summary and analysis of the environment and fishery resources in the Bay of Biscay in a context of global change.	<u>K. Rabski</u> Practical Implementation of ICZM – selected case studies from Polish coast of Baltic Sea.	
17:05-17:25	<u>G. Fontolan</u>, A. Bezzi, D. Martinucci, S. Pillon, C. Popesso. Basics for a decision support pathway to salt marsh restoration.	<u>M. Haseler</u>, G. Schernewski, A. Balciunas. Development of a marine litter monitoring strategy and recovery rate experiments for micro and meso-plastics at sandy beaches of the Baltic Sea.	
17:30-18:45	Poster Session (Bellevue Center Hall)		
19:00-20:00	Visit of the Sea Museum		

Wednesday, 26th of October (Day 2)

	Session IV. ICZM - Room Vague 1 – <i>Chair: C. Brière</i>	Session V. Coastal Geomorphology - Room Vague 2 – <i>Chair: S. Abadie</i>	Special session/workshop II - Auditorium -
8:15-8:35	N. Rocle. Governance challenges for coastal adaptation: lessons and prospects from current practices in France.	M. Schembri, H. Burningham, J. French. Meso-scale behaviour of pocket beaches in a micro-tidal setting.	Coastal dune geomorphology, biodiversity and management in relationship with climate change Coordinators: M.-H. Ruz (Professor at the University of Littoral-Opal Coast) and A. Salman (EUCC- the Netherlands)
8:35-8:55	M. Philippe, J. Herry, A. Henaff, C. Meur-Ferec, I. Le Berre, Y. Rabuteau, A. Maulpoix, L. David, D. Bailly, R. Pasco, M. Cassé. Coastal risks and climate change: when research and management bodies build together tools and methods.	S. Suanez, E. Blaise, P. Stéphan, B. Fichaut, F. Floch, R. Cancouët, F. Arduin. Significant shoreline erosion in Brittany coast during the winter 2013-2014.	
8:55-9:15	A. Buanes, E. Mikkelsen, H. T. Sandersen. Will up-scaling the planning scope enhance ecosystem-based management within ICZM?	W. Sulisz, M. Paprota, D. Majewski, M. Szmytkiewicz, A. Reda. A novel approach to the problem of coastal erosion in polar regions.	M.-H. Ruz & A. Salman Introduction to this special session
9:15-9:35	R. Povilanskas, S. Numminen. Finnish and Lithuanian perspectives on ICZM: a comparative analysis based on the 'System Approach Framework' methodology.	R. Autret, G. Dodet, B. Fichaut S. Suanez. Wave effects on 'hard' rock cliffed coasts: cliff-top storm deposit dynamics on Banneg Island during winter 2013-2014	C. Corbau, Y. Taddia, I. Rodella, K. Utizi, V. Russo, E. Zambello, A. Pellegrinelli, U. Simeoni. Natural processes and human influences on the long and short term evolution of the littoral of Rosoina, Northern Adriatic (Italy).
9:35-9:55	M. Monge Ganuzas. Nature based adaptation measures to sea-level rise and a integrated coastal zone management approach for reclaimed estuaries: the case study of Oka estuary	F. Taveira-Pinto, R. Henriques. Evaluation of erosion levels on the northwest coast of Portugal.	A. Bezzi, S. Pillon, D. Martinucci, G. Fontolan. Inventory and conservation assessment for the management of coastal dunes, Veneto Coasts, Italy
9:55-10:15		T. Rey, L. Le De, F. Leone, D. Gilbert. Impacts of category 5 cyclone Pam in Vanuatu.	C. Garcia-Lozano, Josep Pintó Fusalba. Current status and future prospects of coastal dune systems of Catalan Shore (Spain, NW Mediterranean Sea). M.-H. Ruz. Distinctive incipient foredune development along a prograding macrotidal shoreline, Northern France.
10:15-10:35			20' discussion
10:15-10:35	<i>Coffee break</i>		
	Session IV. (Continuation) - Salle Vague 1 – <i>Chair: E.Mikkelsen</i>	Session V. (Continuation) - Salle Vague 2 – <i>Chair: S. Suanez</i>	Workshop II. (Continuation) - Auditorium -
10:35-10:55	M. L. Fernandes, F.L. Alves. Using cumulative impact assessment to support marine spatial planning in Portugal.	M. Ragon, A. Quiquerez, J. Pfeffer, P. Allemand. Sedimentary dynamics and occupation of coastal areas: influence of climate and human activities.	Coastal dune continuation
10:55-11:15	H. Janssen, R. Ernsteins, J. Stottrup, G. E. Dinesen, R. Povilanskas. Integrated coastal management in the Baltic Sea region – A retrospective analysis of best practice.	C. Moses. Erosion of cohesive shore platforms: London Clay, Isle of Sheppey, UK.	
11:15-11:35	P. C. Roebeling, C. Coelho, E. d'Elia, T. Alves. Assessing coastal erosion adaptation strategies: an environmental-economic modelling approach	L. N. L. Magalhães Filho, P. C. Roebeling. Influence of local factors on coastal erosion in Portugal: The case of Vagueira Beach.	M. Kuipers, B. Arens, G. Ruessink. Sustainable climate-resilient management of Dutch duolontnes in National Park Zuid-Kennemerland Presented by M. Fonck
11:35-11:55	O. Raynal, R. Certain, C. Brunel, N. Aleman, N. Robin, L. Montel. The sediment management scheme of the Languedoc-Roussillon Region: correlation of bathymetric, seismic and particle size data to help coastal management.	M. Biausque, N. Senechal, A. Barre. Seasonal recovery of an open sandy beach.	F. Zwart. Soft solutions: solid as a rock? 20' discussion
12:00-12:45	Keynote speaker: Jochen Hinkel. Can we adapt to sea-level rise? (Auditorium)		

12:45-14:00	<i>Lunch (Atlantic room)</i>		
	Session VI. Tools & Surveys - Room Vague 1 – Chair: A. Cooper	Session VII. Water Quality - Room Vague 2 – Chair: R. Ballinger	Workshop III. - Auditorium -
14:00-14:20	E. Blaise, S. Suanez. Long-term shoreline evolution of Brittany sedimentary coast (France).	M. Monperrus, L. Lancelleur, B. Lohrer, M. Guillaut, T. Pigot, V. Bolliet. Current knowledge on the occurrence and the fate of compounds of emerging concern in the south Aquitaine coastal zone	Coastal hazards and governance. Problems of responsibility and insurance in the strategies of integrated coastal management Coordinators: Fanny Puppink (EUCC-France) and Jochen Hinkel (Global Climate Forum)
14:20-14:40	M. Besset, E. Anthony, F. Sabatier. Mediterranean river deltas: towards indexing shoreline erosion as a criterion of delta vulnerability.	M. Kataržytė, S. Liaugaudaitė, D. Karnauskaitė, G. Schernewski. Coastal bathing water quality in Lithuania: legislation, policy and an assessment of current water quality in Curonian Lagoon.	
14:40-15:00	C. Bosc, L. Chandelier, P. Laine, A. Roche. Using very high resolution space data to observe and monitor the coastline	N. Čerkasova, G. Umgieser, A. Ertürk, J. Měžíně, M. Kataržytė. Modelling microbial pollution transport in the Curonian Lagoon.	With the participation of: G.-A. de La Rochefoucauld: Country Manager of Lloyd's France SAS G. Lengagne: Former Minister of the French Government, President of Nausicaa L. Montador: Deputy General Manager of the CCR (Caisse Centrale de Réassurance) J. Hinkel: Senior researcher at the Global Climate Forum & Humboldt University in Berlin P. Lesage, in charge of the national inspection network of the SMACL (Société Mutuelle d'Assurances des Collectivités Locales)
15:00-15:20	L. De Lima, C. Bernardes, M. Sá, C. Weiss. Shoreline analyst: a python plugin for QGIS.	Workshop IV. - Room Vague 2 – YPCC - Preparing to Adapt with Young Professionals Coordinators: Robbert Misdorp and Albert Salman (the Coastal & Marine Union-EUCC) With the participation of Stephane Abadie (Professor, University of Pau), Leo Bentvelzen & Ruben de Vries (Teachers, University of Applied Sciences, Leeuwarden), Ted van de Klauw (Teacher, University of Applied Sciences, Delft), Andre Dijkstra (Royal Netherlands Institute for Sea Research, Texel), Tjark van Heuvel (Advisor, EUCC Leiden).	
15:20-15:40	D. Martinucci, S. Pillon, S. Sponza, A. Bezzi, C. Popesso, G. Casagrande, G. Fontolan. UAV High resolution photogrammetry applied to coastal geomorphology: a dune and a barrier island case.		
15:40-16:00	<i>Coffee break</i>		
	Session VI. (Continuation) - Room Vague 1 – Chair: A. Roche	Workshop IV. (Continuation) - Room Vague 2 –	Workshop III. (Continuation) - Auditorium -
16:00-16:20	F. Bellafont, D. Morichon, G. André. Role of infragravity waves on harbours oscillations.	Berk, R., Hendriks, R., Alderliesten, N., van der Klaauw, T. 'Holwerd-on-Sea': Coastal design from a different and integrated perspective	Coastal hazards and governance. (continuation) Problems of responsibility and insurance in the strategies of integrated coastal management
16:20-16:40	T. Guérin, X. Bertin, E. Chaumillon. Pluri-decadal modelling of the rhythmic development of a sandspit.	M. Hoogerwerf, S. Martis, M. van Rossum, M. Starkenburg Sea level rise in the Wadden Sea: A report on the effect of sea level rise on the breeding habitat of <i>Thalasseus sandvicensis</i> in the Wadden Sea	
16:40-17:00	X. Bertin, T. Guérin, A. de Bakker. Morphodynamic modelling of tidal inlets: recent advances and challenges	F. Arnoux, M. Beauvivre, L. Huguenin How two different studies carried out on French Basque coast could be complementary in the context of climate change?	
17:45-18:45	Poster Session (Bellevue Center Hall)		

Thursday, 27th of October (Day 3)

	Session VIII. Strategic Retreat & beach nourishment - Room Vague 1 – <i>Chair: M-C. Prat</i>	Session IX. Territorial Approach and Coastline - Room Vague 2 – <i>Chair: C. Meur-Férec</i>	Workshop V. - Auditorium -
8:30-8:50	A. Holland, C. Moses, D. Sear, S. Cope. Active layer depth and sediment transport volumes on a mixed sand and gravel beach measured using PIT tagged tracer pebbles.	S. van Heteren, C. Moses, T. van de Ven. Coastal erosion and accretion: translating incomplete data and information into vulnerability assessments	Nature, impacts and uncertainties of climate change in coastal areas Coordinator: Eric Brun, Ministry of Environment - GEC/SCEE/ONERC (National Observatory on warming climate effects) With the participation of : W. Llovel (CERFACS, Toulouse): sea-level rise in the past; observations and causes G. Durand (LGGE - Grenoble Lab. Glaciologie et Géophysique de l'Environnement.): sea-level rise in the future. IPCC projections, risks and uncertainties linked with polar icecaps and ice shelves (Greenland and Antarctic)
8:50-9:10	C. Brière, P. K. Tonnon. Climate resilient coastal management based on building with nature philosophy: the Sand Motor pilot case, The Netherlands.	J.-L. Pacitto, O. Jacquemin. Amphibium, a bio-inspired modelling territorial approach	
9:10-9:30	A. Spodar, M.-H. Ruz, A. Héquette, P. Grégoire, N. Forain. Monitoring of a massive beach nourishment designed to protect an urban area from marine flooding, Dunkirk, northern France.	R. Crauste, B. Larroque, H. Heurtefeux, C. Guérin, P. Richard, J. Favennec. Prevention of marine submersion, adaptation to climate change and increasing the resilience of a dune system. The example of the reorganization of Grau du Roi coastline (France - Gard)	
9:30-9:50	G. Lemoine. EPF Nord-Pas de Calais: a state public agency to give a regional response for strategic coastal retreat.	H. Rev-Valette, C. Bazart, B. Rulleau, J. Dachary-Bernard, V. Clément, N. Lautredou-Audouy. Acceptibility of coastline restructuring policies.	
9:50-10:10	<i>Coffee break</i>		
	Session VIII. (Continuation) - Room Vague 1 – <i>Chair: P. Bazin</i>	Session X. Tools & Methods - Room Vague 2 – <i>Chair: R. Povilanskas</i>	Workshop V. (Continuation) - Auditorium -
10:10-10:30	D. Karnauskaitė, G. Schernewski, J. Schumacher. Evaluating the success of integrated coastal management best-practice initiatives around the Baltic Sea.	J. Gilham, J. Barlow, R. Moore. Establishing a framework for the recessional chronology of sea cliffs using high-resolution topobathymetry data and relative sea level change during the Holocene	M. Beniston (University of Geneva): Storms and cyclones; recent development and projections on regional scale J.-P. Gattuso (Oceanological observatory of Villefranche-sur-Mer): ocean acidification; state of knowledge, projections and possible impacts
10:30-10:50	C. Chirol, I. Haigh, S. Gallop, N. Pontee, C. Thompson. Morphological evolution of managed realignment schemes.	B. Guillot, B. Castelle, V. Marieu. A low-coast UAV photogrammetry technique to derive digital elevation models on spatially extensive areas at unprecedented spatial resolution: application to the coastal dunes of the Gironde coast, SW France.	
10:50-11:10	A. Gueguen. The feasibility of relocation (or strategic retreat) of property and activities to manage coastal risks in Lacanau.	B. Kulling, F. Sabatier, E. Anthony, J. Plaine. Modelling longshore sediment transport on sandy deltaic and adjacent coasts.	
11:10-11:30	E. Waddington, R. C. Ballinger. Research needs to improve our understanding of salt marshes in order to facilitate managed realignment.	B. Castelle, V. Marieu, S. Bujan, S. Ferreira, A. Robinet, B. Guillot. Long-term beach-dune monitoring at Truc Vert (SW France) over the last 2 decades: from theodolite to UAV-photogrammetry, and towards reduced-complexity modelling.	
11:30-12:15	Keynote speaker: Gregory Beaugrand. Marine biodiversity and climate change.		
12:15-13:00	Keynote speaker: Andrew Cooper. Possible consequences of sea-level rise for the shoreline mobility on different time scales. (Auditorium)		
13:00-14:00	Lunch (Atlantic room)		

14:00-14:45	Keynote speaker: François Schmitt . Multiscale analysis of water level time series (modeled and measured) and the dynamics of return times. (Auditorium)		
	Session XI. Ecosystem Services - Room Vague 1 – Chair: E. Mikkelsen	Session XII. Coastal Risks - Room Vague 2 – Chair: R. Misdorp	Workshop VI. - Auditorium -
14:45-15:05	A. Bisaro, J. Hinkel . Managing public and private roles in coastal adaptation: governance modes and financial instruments.	A. Creach, S. Pardo, D. Mercier . Estimation of mortality in case of coastal flood: proposal for a new methodology and application to storm Xynthia.	Climate changes and extreme events : few examples from Aquitaine coastal research Coordinators: Iker Castège, Centre de la Mer de Biarritz Stéphane Abadie, Professor at the University of Pau and Pays de l'Adour, Cyril Mallet (BRGM/ Observatory of the Aquitaine Coast)
15:05-15:25	Y. Fujita, R. P. Bartholomeus, J. P. M. Witte . A climate-robust integrated model to predict ecosystem services: a case study in groundwater-independent coastal dunes.	R. C. Ballinger, L. Taylor . Translating science into policy: analysing the science-policy interface associated with coastal risk management on the Severn Estuary, UK.	
15:25-15:45	J.-E. Beuret, A. Cadoret . How can coastal urbanization be limited to preserve the coastal environment? Avoidance, confrontation and dialogue strategies in three French regional nature parks.	M. Le Duff, P. Dumas, O. Cohen, M. Allenbach . Adaptation to climate change and population involvement: example of a participative survey of coastal erosion in Oueva (New Caledonia).	
15:45-16:05	M. Inacio, G. Schernewski, R. Friedland, Y. Nazemtseva, I. Gustité . Marine ecosystem service assessment: Szczecin and Curonian Lagoon case studies.	M. Coquet, D. Mercier, G. Fleury-Bahi . Coastal flood risk assessments: spatial and temporal biases.	
16:05-16:25	<i>Coffee break</i>		
	Session XII. Sea Level Rise - Room Vague 2 – Chair: G. Durand		Workshop VI. (Continuation) - Auditorium -
16:25-16:45	Ü. Suursaar, M. Mäll, A. Kont, H. Tonisson, R. Nakamura, T. Shibayama . Sea level rise and storm surges in Pärnu, Baltic Sea: past and future.		E. Milon, I. Castège Marine biodiversity and climate changes. Some examples from ERMMA program in the Bay of Biscay.
16:45-17:05	E. Sainz de Murieta, A. Cearreta, I. Galarraga . Future sea-level rise impacts on the Basque coast based on the recent geological record.		N. Susperrégui, F. D'Amico, T. Pigot, Y. Del Amo, N. Bru . Hydroclimatic mucilage Index (HMI) in the Bay of Biscay: historical change and relation to regional and global climatic index.
17:05-17:25	R. Misdorp, A. Dijkstra, M. Ferreira, A. Salman . Climate change, Greenland melting, accelerated sea level rise – impacts and response for low lying coastal areas.		G. Deletraz, A. Pottier, T. Tran . The difficult construction of a trust relationship between professional, scientific fishermen and managers vis-à-vis an unknown phenomenon.
17:30-18:30	Conference closing (Auditorium)		
19:30-22:30	<i>Conference Dinner (Bellevue Center, Rotonde) with entertainment: Basque choir of "Amicale du Petit Bayonne"</i>		

Poster Session (Bellevue Center Hall)
Tuesday 25th 17:45-18:45 and Wednesday 26th 17:30- 18:45

Authors. Title	Poster No.
Knowledge on coastal environment: state of the art, new tools and approaches in the context of climate change

M. van Schaik, B. Ossterbaan, L. Geelen. Mapping and managing IAS; a case in the Amsterdam dunes.	
Sustainable development and technical approaches in the coastal zone and adaptation to climate change	
J.-E. Beuret. 'Green on Blue': Building offshore wind farms social acceptance in situations of uncertainty. The Saint Nazaire, Saint Brieuc, and Leucate wind farms.	
O. Jacquemin, J.-L. Pacitto, J. Belvisi. Take the sea on time long to observe sustainable earth: the Oppamers, the construction of an observatory of the coastal landscape seen from the sea, released for the PACA region.	
M. Villares, E. Roca. Public perceptions of climate change scenarios in the Costa Brava.	

Invited personalities

The conference will be opened by **Michel Veunac**, Mayor of Biarritz, regional councillor of Nouvelle Aquitaine and **Yvonne Battiau-Queney**, president of EUCC-France

Personalities present:

Claude Olive, president of the "Agglomération Côte Basque Adour", Mayor of Anglet

the President of the "Agglomération Sud Pays Basque" (to confirm)

the President of the Department of Pyrénées Atlantiques (to confirm)

Sandrine Derville, vice-president of the Nouvelle Aquitaine Region, representing the president Alain Rousset

Jean-François Rapin, senator, president of ANEL, regional councillor of Hauts de France

Pascale Got, deputy of Gironde, departmental councillor of Gironde

Kotte Ecenarro, mayor of Hendaye, departmental councillor of Pyrénées Atlantiques

Albert Larrousset, mayor of Guéthary

Other personalities will be present:

Guy Lengagne, former minister, president of the Nausicaa sea center

Renaud Lagrave, president of GIP Aquitaine littoral, vice-president of the Nouvelle Aquitaine Region

Guy Antoine de La Rochefoucauld, country manager of Lloyd's France

Laurent Montador, deputy general manager of the "Caisse Centrale de Réassurance"

Gerald Schernewski, president of Coastal & Marine Union (EUCC)

Representatives of the Ministry of Environnement, energy and sea, of the devolved state services (DREAL, DDTM) and of the "Conservatoire du Littoral"

Excused personalities:

Ségolène Royal, minister of Environnement, energy and sea

Alain Rousset, president of the Nouvelle Aquitaine Region

Emmanuel Alzuri, mayor of Bidart

Pierre Dartout, prefect of the Nouvelle Aquitaine Région, prefect of Gironde

Eric Morvan, prefect of Pyrénées atlantiques

François Mitteault, director of Water and biodiversity, Ministry of Environnement, energy and sea

Exhibition Stands

Suez Environnement – Lyonnaise des Eaux

Observatoire de la Côte Aquitaine –BRGM

EBS Technology

EUCC-France & Centre de la Mer de Biarritz

Acknowledgments

The organizing board greatly thanks:

Our financial partners

ERDF (European Union) and the Nouvelle Aquitaine Region

The city of Biarritz

The Ministry of Environnement, energy and sea

The department of Pyrénées Atlantiques

The "Agglomération Côte Basque Adour"

The "Agglomération Sud Pays Basque"

Lloyd's France

Our scientific partners and the members of the scientific committee who did a hard job, **Leonie Bushbeck**, who spent three months in Biarritz with EUCC-France as an ERASMUS trainee and did a remarkable job to prepare the scientific sessions,

The "CPIE Littoral Basque", more particularly **Alistair Brockbank** whose polyglot skills have been excessively exploited,

... at last all the participants, keynote speakers, coordinators and invited speakers of workshops and field trips, authors of oral papers and posters, exhibitors and all those attending the conference.
