

Coastal dunes management strategies and practices

Perspectives and case studies

**Proceedings of the international Conference
organized by EUCC-France and the Coastal & Marine
Union (EUCC) in Merlimont (Pas-de-Calais, France)
June 17-19th 2014**

Sous la direction de
Jean Favennec et Yvonne Baffiau-Queney

Acknowledgments

This issue of *Dynamiques Environnementales* is devoted to the proceedings of the International Conference which was organized by EUCC-France and the Coastal & Marine Union (EUCC) in Merlimont (17-19 June, 2014). The Merlimont conference was supported by the city of Merlimont-Plage, the Region of Nord-Pas-de-Calais and the Office National des Forêts. The publication of the proceedings was partially funded by the Coastal & Marine Union (EUCC). It was made possible by the hard work and cooperation of many individuals (authors and referees) with a special involvement of Marie-Claire Prat. All of them are gratefully thanked.

Coastal dunes management strategies and practices: Perspectives and case studies

SOUS LA DIRECTION DE JEAN FAVENNEC ET YVONNE BATTIAU-QUENEY
